Your one source for regulatory compliance, skill building and continuing education.

Learn the Keys to Keeping Good People

While labor shortages and rising replacement costs are growing trends in today's healthcare environment, compensation and benefits are only part of a successful workforce partnership. Recognition, opportunities for professional growth, career advancement and other strategies must be considered to achieve employee satisfaction and retention. However, good management skills are more critical than ever!

Halligan-Lynch offers customized skill-building programs that will teach managers how to create an environment that is conducive to employee development and retention, as well as a positive customer experience:

- Coaching, supervisory skills, interviewing, performance evaluation and other management skills
- Training in communication skills, team building, customer service, change management and more
- Helping managers learn how to deal with employees with difficult behavior
- Educational seminars for healthcare professionals
